Education

Master Environmental Modeling, Carl von Ossietzky Universität Oldenburg — October 2023 - June 2026

- Final Grade: **1,06 - with distinction**
- Mathematical modeling (nonlinear dynamics, network science, statistics) with applications in ecology and renewable energies.
- Master thesis topic: *Rate-induced Tipping from Chaotic Attractors* - Grade: **1,0**.

Bachelor Mathematics, Universität Bonn — October 2019 - July 2023

- Final grade: **1,9**
- Second subject: Computer Science
- Bachelor thesis topic: *Differentialgleichungen im Komplexen und spezielle Funktionen* - Grade: **2,0**.
- One year Erasmus exchange at the University of Warwick in England.

Abitur, Altes Gymnasium Bremen — 2018

- Final Grade: **1,3**
- Awards for achievements in mathematics and physics and participation in school orchestra.

Work Experience

Student Assistant, Carl von Ossietzky Universität Oldenburg — June 2025 - December 2025

- Programming of a high-dimensional food web model in the programming language Julia.
- Collaboration with a post doctoral researcher and preparation of an upcoming joint publication.

Tutor, Carl von Ossietzky Universität Oldenburg — October 2024 - January 2025

- Tutor for the module *Mathematische Modellierung 1*

Student Assistant, Fraunhofer SCAI, Sankt Augustin — January 2023-March 2024

- Implementation of machine learning algorithms for generating semi-regular meshes.
- Improved time-series forecasting of car crash simulations.
- Gained experience with pytorch, neural networks and high performance computing.

Skills and Interests

Programming languages: Proficient in Julia, Python und Matlab; Advanced knowledge of C#, GDScript und Javascript.

IT-Skills: Version control with Git, multiple years of experience with high performance computing, application of software engineering best-practices.

Languages: German: native, English: proficient, French: intermediate

Interests: Philosophy of modeling, nature observation, possibilities of sustainable societal development.

Oldenburg, 15.10.2026
